12) On principle it is objectionable to waive the recovery of any portion of the maintenance charges which are recoverable under general orders of Government The municipality being poor ~~or~~ the municipality being small is not a sufficient reason to do so as the maintenance charges should be regarded as a first charge on their revenues and they should necessarily provide for the same by curtailing expenditure in other directions or increasing their revenue

13) These are recurring charges and whatever justification there may be in individual cases to waive the centage charges for the construction of works it will not be financially admissible to waive the recovery of recurring maintenance charges as the same will add to the ordinary expenditure of the State

As to establishment and tools and plant charges, I recommend the request of the Municipal Council for favoura consideration of Government The Filter works have cost heavy sum to the Municipality and they have also to bear heavy maintenance charges In view of these I conside a charge not exceeding 5% on tools and plant is fair

SIR

With reference to your letter No L 5388/M1 208-32-2 dated 10th February 1933 calling for certain information regarding the Annual Maintenance Estimate of Chikkachannanjappa Chetty Water Works Kolar I have the honour to state that the annual maintenance charges amount to Rs 5 000/- It is proposed to charge 5% on the works outlay including the establishment I may also add that in Kolar only the filters including pumping units are under this Department but not the Head Works and the distribution Further Kolar is a small municipality with slender resources On account of these reasons only 5% is proposed to be levied towards the establishment and Tools and Plant Charges instead of 7½% as in the case of Mysore and Shimoga

The proportion proposed towards audit and direction charges is 1½% and 3½% towards supervision I therefore request that the charges may be reduced to 5% as already recommended in my letter No C 596-5 dated 11th February 1933

In this connection I wish to specially recommend for favourable consideration of Government that in view of the poor financial position of the small municipalities only 5% towards Establishment and Tools & Plant Charges may kindly be levied
